

BRUSES - Publications

Berninsone PM, **Bruses JL**, Azcurra JM (1989) Detection of drug effects on neurons: protein synthesis inhibition by low doses of amphetamine. *Methods & Findings in Experimental & Clinical Pharmacology* 11:249-253

Bruses JL, Berninsone PM, Ojea SI, Azcurra JM (1991) The circling training rat model as a behavioral teratology test. *Pharmacol Biochem Behav* 38:739-745

Gray DB, **Bruses JL**, Pilar GR (1992) Developmental switch in the pharmacology of Ca²⁺ channels coupled to acetylcholine release. *Neuron* 8:715-724

Bruses JL, Capaso J, Katz E, Pilar G (1993) Specific in vitro biological activity of snake venom myotoxins. *J Neurochem* 60:1030-1042

Bruses JL, Azcurra JM (1993) The Circling Training: A Behavioral Paradigm for Functional Teratology Testing. In *Methods in Neuroscience Vol. 14, Paradigms for the Study of Behavior*. Ed P. M. Conn. Academic Press pp 166-179

Bruses JL, Pilar GR (1995) Effect of cycloheximide and mRNA synthesis inhibition on death of trophically deprived ciliary ganglion neurons in culture. *J Neurophysiol* 74:2487-2499

Bruses JL, Oka S, Rutishauser U (1995) NCAM-associated polysialic acid on ciliary ganglion neurons is regulated by polysialyltransferase levels and interaction with muscle. *J Neurosci* 15:8310-8319

Oka S, **Bruses JL**, Nelson RW, Rutishauser U (1995) Properties and developmental regulation of polysialyltransferase activity in the chicken embryo brain. *J Biol Chem* 270:19357-19363

Bruses JL, Rutishauser U (1998) Regulation of neural cell adhesion molecule polysialylation: evidence for nontranscriptional control and sensitivity to an intracellular pool of calcium. *J Cell Biol* 140:1177-1186

Bruses JL (2000) Regulacion de la adhesion celular durante la formacion de sinapsis: interacciones funcionales entre N-cadherin, p120ctn, y acido polisialico. Serie "Seminarios del Instituto de Biología Celular Dr. Eduardo De Robertis"

Bruses JL (2000) Cadherin-mediated adhesion at the interneuronal synapse. *Curr Opin Cell Biol* 12: 593-597. PMID: 10978895

Bruses JL, Rutishauser U (2000) Regulatory Roles of Polysialic Acid in Neural Cell Development. In *Molecular and Cellular Glycobiology: Frontiers in Molecular Biology*. Ed. M. Fukuda and O. Hindsgaul. Oxford University Press pp116-132

Bruses JL, Chauvet N, Rutishauser U (2001) Membrane lipid rafts are necessary for the maintenance of the (alpha)7 nicotinic acetylcholine receptor in somatic spines of ciliary neurons.

J Neurosci 21:504-512. PMID: 11160430

Fujimoto I, **Bruses JL**, Rutishauser U (2001) Regulation of cell adhesion by polysialic acid. Effects on cadherin, immunoglobulin cell adhesion molecule, and integrin function and independence from neural cell adhesion molecule binding or signaling activity. J Biol Chem 276:31745-31751. PMID: 11425861

Bruses JL, Rutishauser U (2001) Roles, regulation, and mechanism of polysialic acid function during neural development. Biochimie 83:635-643. PMID: 11522392

Bruses JL, Chauvet N, Rubio ME, Rutishauser U (2002) Polysialic acid and the formation of oculomotor synapses on chick ciliary neurons. J Comp Neurol 446:244-256. PMID: 11932940

Barberi T, Klivenyi P, Calingasan NY, Lee H, Kawamata H, Loonam K, Perrier AL, **Bruses JL**, Rubio ME, Topf N, Tabar V, Harrison NL, Beal MF, Moore MA, Studer L (2003) Neural subtype specification of fertilization and nuclear transfer embryonic stem cells and application in parkinsonian mice. Nat Biotech 21:1200-1207. PMID: 14502203

Perrier AL, Tabar V, Barberi T, Rubio ME, **Bruses JL**, Topf N, Harrison NL, Studer L (2004) Derivation of midbrain dopamine neurons from human embryonic stem cells. Proc Natl Acad Sci U S A 101:12543-12548. PMID: 15310843; PMCID: PMC515094

Piccoli G, Rutishauser U, **Bruses JL** (2004) N-cadherin juxtamembrane domain modulates voltage-gated Ca²⁺ current via RhoA GTPase and Rho associated kinase. J Neurosci 24:10918-10923. PMID: 15574742

Tricaud N, Perrin C, **Bruses JL**, Rutishauser U, (2005) Adherens junctions in myelinating Schwann cells stabilize Schmidt-Lanterman incisures via recruitment of p120 catenin to E-cadherin. J Neurosci 25:3259-3269. PMID: 15800180

Rubio ME, Curcio C, Chauvet N, **Bruses JL** (2005) Assembly of the N-cadherin adhesion complex during synapse formation involves uncoupling of p120-catenin and association with presenilin 1. Mol Cell Neurosci 30:118-130. PMID: 16046145

Bruses JL (2006) N-cadherin signaling in synapse formation and neuronal physiology. Mol. Neurobiol. 33:237-252. PMID: 16954598

Marrs GS, Theisen CS, and **Bruses JL** (2009)(Epub 2008) N-cadherin modulates voltage-activated calcium influx via RhoA, p120-catenin, and myosin-actin interaction. Mol Cell Neurosci. 40:390-400. PMID: 19162191; PMCID: PMC2883866

Bruses JL (2010) (Epub 2009) Identification of gene transcripts expressed by postsynaptic neurons during the initiation of synapse formation encoding cell surface proteins with presumptive synaptogenic activity. Synapse 64:47-60. PMID: 19728367; PMCID: PMC2783745

Bruses JL (2010) N-cadherin regulation of synapse formation and synaptic activity. In *Molecular and Functional Diversities of Cadherin/Protocadherin*". Edited by K. Yoshiuda, Research Signpost, Chapter 3 pp 39-55

Bruses JL (2011). N-cadherin regulates primary motor axons growth and branching during zebrafish embryonic development. *J. Comp. Neurol.* 519:1797-1814. PMID: 21452216

Zelenchuck TA and **Bruses JL** (2011). In vivo labeling of zebrafish spinal cord motor neurons using an mnx1 enhancer and Gal4/UAS. *Genesis.* 49:564-554. PMID: 21538811

Arrode-Bruses G and **Bruses JL** (2012). Maternal immune activation by poly(I:C) induces expression of the cytokines IL-1beta and IL-13, chemokine MCP-1, and colony stimulating factor VEGF in fetal mouse brain. *J Neuroinflamm* 9:83-98. PMID: 22546005; PMCID: PMC3413576

Flannery R and **Bruses JL** (2012). N-cadherin induces partial differentiation of presynaptic terminals in heterologous cultures of brain stem cholinergic neurons and CHO cells. *Frontiers in Neurosci* 4 (article 6): 1-11. PMID: 23227006; PMCID: PMC3514636

Bruses JL (2013). Cell surface localization of $\alpha 3 \alpha 4$ nicotinic acetylcholine receptors is regulated by N-cadherin homotypic binding and actomyosin contractility. *PLOS One* 8:e62435

Rousset M, Cens T, Menard C, Bowerman M, Bellis M, **Bruses JL**, Raoul C, Scamps F, and Charnet P (2015). Regulation of neuronal high-voltage activated Ca_v2 Ca^{2+} channels by the small GTPase RhoA. *Neuropharmacology* 97:201

Donnoli VF, Moroni MV, **Bruses JL** (2015). Esquizofrenia Unica: Clinica, Psicopatologia, Neurobiologia. Editorial Salerno, Buenos Aires, Argentina

Rima M, Daghani M, M'Rad R, Fajloun Z, **Bruses JL**, Ronjat M, De Waard M. (2016). Protein partners of the calcium channel beta subunit highlight new cellular functions. *Biochemical J.* In Press
