What activity or aspect of the course was most effective?

Comment
Speaking to the professional who taught us how to write resumes and cover letters.
The peer review was very helpful. I received a lot of feedback from my classmates on how to make therapy better for my client.
Receiving and offering peer reviews of our current clients.
Being able to provide clinical advice to other students from their presentation. This experience demonstrated to me how my clinical intuition has sharpened with more experience.
The peer review of clinical sessions was very effective.
I think when we shared our videos from clinic the feedback we received was great.
The peer review was very helpful for ideas for activities for the sessions.
I feel in class discussion and peer review was effective
