
Logging into Computer lab computers using Mercy Credentials

Mercy College

Logging in using Windows 7

Step 1: When you are using one of the computer labs in the library or computer labs, you will be able to sign in using your Mercy domain credentials. If the computer is not turned on, turn Power on, then

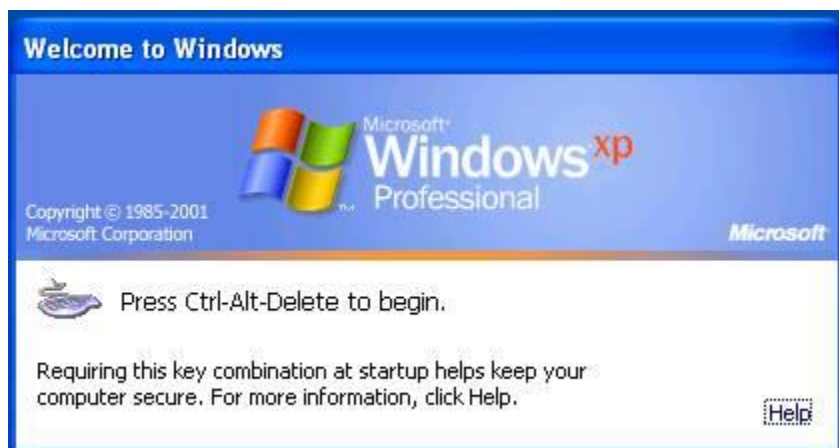

Step 2: When the login screen appears you must type mercy\<(backslash) username and then type your password and click ok.

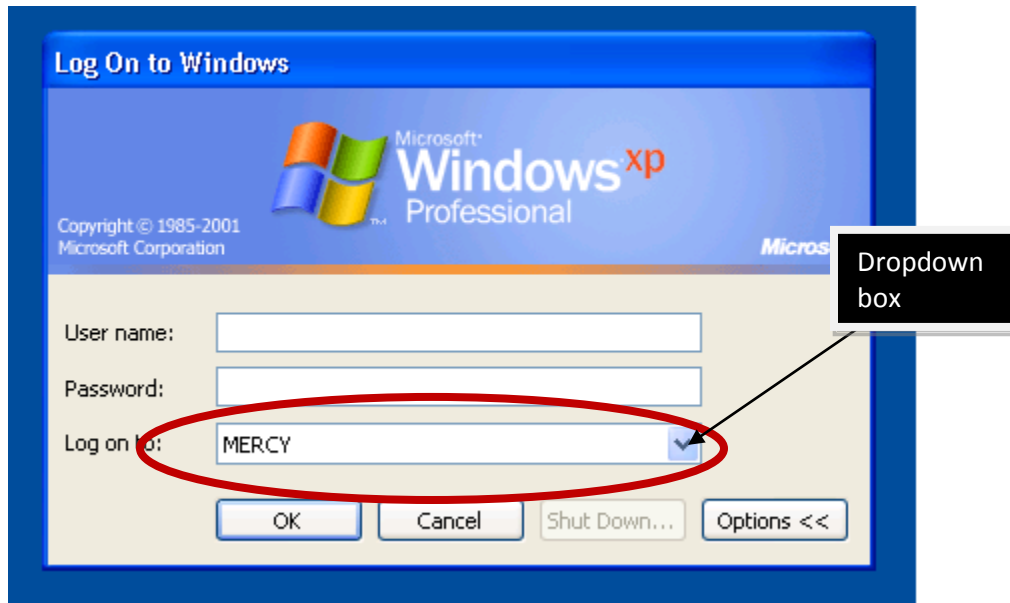

Logging in using Windows XP

Step 1. When you are using one of the computers in the computer labs, you will be able to sign in using your Mercy domain credentials. If the computer is not on, turn Power on, then

Just hit Ctrl & Alt & Delete together at the same time

Type in your Username (Mercy Ad login information)
Then type in your password (Mercy Ad password)

In the Log on to dropdown box: You have three choices
(MC7262) my computer
Mercy
Student

Make sure that you choose **Mercy** and then Hit enter

Now you are ready to begin using the computer.
